STUDENT BRIEFING

By the time you read this I will no longer be occupying the body and identity that you have known as Ron. That identity continues to live in the hearts and minds of many as well as in on-Source tech and admin centers around the planet, and will inspire for years to come Scientologists and lovers of truth every-where.

What follows is a story that has been withheld, for reasons which will soon be obvious, until such time as there were enough OTs that something could be done about it. That time is now. It is not a nice or a pretty story. but I trust that having arrived on the OT VIII Course you are ready to hear it. You have undoubtedly heard pieces of data over the years that hinted at the greater untold reality of my mission here on Earth. but the story was never written, nor spoken. in its entirety due to security problems that have unfortunately always plagued the organization. It is only now that I feel it safe to release the information, although the time is rapidly approaching when I will have no choice in the matter, the hour draws that near.

I am not going to delve too deeply into specifics as people have a tendency to bog themselves down in significance. which would only serve to delay the immediacy of the task at hand. Therefore I will be brief.

Some eighty-odd million years ago Earth time (it actually dates at 78,395,042 but dates are a bit superfluous with this material) plans were drawn by a group outside the MEST universe for the eventual takeover of a good portion of this universe. Not a particularly large nor imaginative crew, their exterior perspective. however. gives them considerable advantage over the time-bound beings of the MEST universe. Borrowing from earlier operations such as Helotrobus. they conceived an ongoing implant. some portions of which have been fairly faithfully rendered in parts of the Bible. This implant, laid in by carefully controlled genetic mutation at Incident Two of OT III and periodically reinforced by controlled historic events since then, makes it effectively impossible for beings on the more heavily affected planets such as Earth to become free. It causes progressive genetic "evolution" that gives the subject population greater and greater susceptibility to the telepathic impingement and direction of the controllers. In its final stage the progression becomes almost geometric, and it is this final stage that we are rapidly approaching.
(0129)

Another aspect of this GE-line implant is that the body becomes in effect a sort of trap that kicks in heavily on the being should he attempt to expand his horizons beyond that of pure physical universe reality. There can be temporary key-outs which we have all experienced in varying degrees. but until this area is handled it can honestly be said that there is no hope for continued expansion. The good news is that once this is run out. expansion becomes rather effortless and almost automatic.

No doubt you are familiar with the Revelations section of the Bible where various events are predicted. Also mentioned is a brief period of time in which an arch-enemy of Christ. referred to as the anti-Christ, will reign and

his opinions will have sway. All this makes for very fantastic, entertaining reading but there is truth in it. This anti-Christ represents the forces of Lucifer (literally, the "light bearers" or "light bringer"), Lucifer being a mythical representation of the forces of enlightenment, the Galactic Confederacy. My mission could be said to fulfill the Biblical promise represented by this brief anti-Christ period. During this period there is a fleeting opportunity for the whole scenario to be effectively derailed. which would make it impossible for the mass Marcabian landing (Second Coming) to take place. The Second Coming is designed, among other things, to trigger a rapid series of destructive events.

With the exception of the original Buddhism, virtually all religions of any consequence on this planet, mono- and pantheistic alike. have been instruments to speed the progress of this "evolution of consciousness" and bring about the eventual enslavement of mankind. As you know, Siddhartha Gautama never claimed to be anything more than a man. Having caught on to this operation, he postulated his own return as Metteyya, part of which prophecy will have been fulfilled upon the passing of L. Ron Hubbard.

For those of you whose Christian toes I may have stepped on. let me take the opportunity to disabuse you of some lovely myths. For instance, the historic Jesus was not nearly the sainted figure has been made out to be. In addition to being a lover of young boys and men. he was given to uncontrollable bursts of temper and hatred that belied the general message of love, understanding and other typical Marcab PR. You have only to look at the history his teachings inspired to see where it all inevitably leads. It Is historic fact and yet man still clings to the ideal. so deep and insidious is the biologic implanting.

It Is a good joke that the Calactic Confederacy is associated with the Serpent in the Garden, the beast and other emissaries of the "Prince of Darkness". Yet in certain passages and esoteric interpretations of the Bible (much of which has been taken out and effectively suppressed for centuries) as well as the Cabbalah, the truth reveals itself quite nicely for the clever and the unullible.

So it really is a race against time and one that we happen to be losing at the moment, as the implant drama inexorably plays itself out in spite of the breakneck pace I've managed to keep up these last thirty-five years.

I had an inkling, but only that, of the insidiousness of this material as far back as 1945. Later. in characteristic over-optimism, I thought that R6 would be the end of it. But that was followed by NOTs and the Purification Rundown and still the string continued to unwind with the ball at the end of it just out of sight. It makes ons wonder about such things as fate and destiny, such
(0130)

was the resolve with which I managed to cling to that string. not often knowing how close I was to falling into the abyss myself. but destiny it merely the rationalization of feeble minds. Things don't just happen, they are caused. And causative beings can undo the plans of madmen and would-be enslavers, no matter how long those plans may have been in the making.

I will soon leave this world only to return and complete my mission with another Identity. Although I long to stretch my arms back in repose on some distant star in some distant galaxy. It appears that is one dream that will have to wait. But my return depends on people like you doing these materials thoroughly and completely so that there will be a genetically uncontaminated body for me to pick up and resume where I left off. A body free of religious mania, right/wrong dichotomy and synthetic karma. The job ahead is far too tough to even contemplate doing with your standard -- courtesy of certain other-dimensional players and their Marcab pieces, many of whom are right here In the general populace -- genetically altered body.

Without the biogenetic meddling of those who stand outside time (who cannot yet directly influence our world and must work through others) the dwindling spiral is not nearly as automatic and self-perpetuating as it appears. There are regions even in isolated parts of the Milky Way where poets are free to poet and magicians can paint reality with their magic wands and exteriorize without body kickback. But these areas unfortunately are fewer and fewer.

I will return not as a religious leader but a political one. That happens to be the requisite beingness for the task at hand. I will not be known to most of you, my activities misunderstood by many, yet along with your constant effort in the theta band I will effectively postpone and then halt a series of events designed to make happy slaves of us all.

So there you have it. The secret that I have kept close to my chest all these years. Now you too are part of this secret and I no longer have to shoulder the burden alone or live with the possibility of body death before all the data could be released. And with this briefing I entrust to each of you the responsibility for this material until such time as I am able to return. For we have no help from any other quarter in this matter. The handful of secret societies throughout history that have caught on to this game have long since fallen by the wayside or been taken over and become instruments of the very menace they were set up to combat.

The rundown is long and can be arduous, but it must be done thoroughly if there is to be any effect not only on the body of the pre-OT but the body of his or her progeny as well. There is some danger, but with OT VII thoroughly complete it is not nearly so great as the danger witnessed by assorted unfortunates who happened to stumble into this area in their sleep or in moments of reverie or anaten, experiencing an hitherto mysterious phenomenon known as "spontaneous combustion".

CAUTION: DO NOT BE PTS WHILE TRAVERSING THIS THIRD AND FINAL WALL OF FIRE

But the area is well charted. the rundown many years in secret development, and by the time you read this undoubtedly completed on myself. The wins awaiting you are like none that you have ever experienced, not just for you, but for your children. your children's children and the whole of mankind, if we succeed. And we will. If we had time we should pity the many poor souls, from
(0131)

1950 to PT, who chose such an exactly inopportune moment to drop off the road to truth and disconnect from reality, the full burst and glory of OT practically within their grasp. But we haven't the time to "wax philosophic" or ponder might have beens.

The rundown follows. Again I say, do it thoroughly and completely, for it is your ticket to the stars. And beyond!
